

# Analyze DI Pro

## Powerful software for your digital media investigations

The increasing volume of image and video files often result in manual review of millions of files, which means increased caseload and turnaround times.

Analyze Digital Investigator Pro reverses that trend. Thanks to a rich toolset of technologies with automated processes that categorize and filter out non-pertinent material, Analyze DI helps you work faster and better.

### GRIFFEYE BRAIN CSA (AI)

Automatically classify child sexual abuse content with outstanding accuracy.

### GRIFFEYE BRAIN OBJECTS (AI)

Automatically label image content based on thousands of concepts.

### FACE RECOGNITION

Detect and recognize faces in image and video using technology applied to mass volume and “real world” (i.e. uncontrolled) imagery.

### SEAMLESS IMPORT/EXPORT

Import everything from CCTV to native forensic image formats and start analyzing them straight away.

### ROBUST IMAGE AND VIDEO HASHING

Save valuable time and energy by pre-categorizing known data and stacking duplicates.

### GROUP AND SEARCH METADATA

Leap ahead in your analysis by correlating metadata to open sources on the internet.

### ADVANCED ANALYSIS

Bring critical clues to the surface faster with analysis algorithms for filtering, sorting and searching.

### CUSTOMIZED REPORTING

Cut down on your admin work with handy functions for detailed and fully customized reporting.

### OPEN API

Use the 3rd party apps you need to crack the case with the ability to add plug-ins through the API.

### GET STARTED WITH EASE

Intuitive and easy-to-use from the start, the user interface enables you to quickly and easily categorize, prioritize and review complex information.

### MANAGE AND ORGANIZE EFFECTIVELY

The dashboard view provides an easy overview of the information you’ve been working on.

### SEE QUICKER PROGRESS

Automation provides a leg up on massive volumes of digital media. Investigations that used to take months, even years, can now be wrapped up in hours or days.

### INDIVIDUAL

One case. One user.

Analyze DI Pro is designed for individual investigators, with tools for sorting and efficiently analyzing large volumes of media files.

### MYGRIFFEYE-USER PORTAL

MyGriffeye User Portal is the gateway to a large and active community of users, developers and other stakeholders. You can exchange advice with your fellow Griffeye users, provide feedback on the platform and take advantage of a vast number of community-generated plug-ins.

### ANALYZE FORENSIC MARKETPLACE

An extensive digital marketplace gives you access to valuable apps developed by Griffeye and by third-party developers – allowing you to add new functionality as your needs change.

### GRIFFEYE BRAIN

Griffeye Brain is our AI program and the first release is an AI module that actively scans materials in order to identify and flag child sexual abuse material. This intelligent technology — featuring algorithms trained on real data — determines whether or not a file is pertinent to an investigation. This helps investigators focus on what's important and move faster in identifying victims.
